

KHUDOBAKSH MIROVONZODA

Frontend developer, 3 years of experience

xsafarmad2001@gmail.com | <https://github.com/Kulob> | <https://t.me/Mirovon55>

With 3 years of frontend development commercial experience, I have successfully built and scaled web applications. I have worked on projects in e-commerce, AI, and a startup project for B2C clients. Experienced in optimizing deployment processes, enhancing UI development workflows, and building high-performance, large-scale applications. Designed and implemented modular frontend architectures to scale complex systems.

PROFESSIONAL EXPERIENCE

Zypl.ai | Front-End Developer | Remote (Dec 2022 – Present) Zypl.ai is a US-based AI educational platform.

- Developed and optimized web applications and internal tools using React, TypeScript, MUI.
- Integrated REST APIs and managed state with Redux, Zustand.
- Improved UI/UX, ensuring responsive and cross-browser compatibility.
- Optimized performance (loading, rendering) and set up efficient project builds (Vite, Webpack).
- Wrote component tests using React Testing Library and reviewed code to ensure quality and standards compliance.
- Collaborated with designers to implement Figma layouts.

Stack: React, TypeScript, Redux, Zustand, MUI, Vite, Webpack, REST API, React Testing Library, Git.

Freelance Projects | Front-End Developer & HTML Coder (2021 – 2022)

- Created and optimized one-page websites with adaptive and responsive layouts.
- Built clean and maintainable HTML/CSS code based on modern standards.
- Developed one-page websites with responsive and cross-browser layout, ensuring correct operation on all popular devices and screen resolutions.
- Optimised page loading and interface performance, reducing load times and improving Google PageSpeed scores.

Stack: HTML5, CSS3, SCSS, JavaScript, Git, React.

Freelance Projects | Graphic Designer (2020 – 2021)

- Edited and retouched photos for clients.
- Created banners, branding, and visual assets for websites.

Tools: Photoshop, Figma.
